Now don't that jar you? Yet, it is the very way each person, neatly fitted, would have the newspaper conducted.

The Committee on Education has been asked by Mrs. C. P. Barnes, Chairman of the Educational Committee of the Kentucky Federation of Women's Clubs, to give it an opportunity to present the plan of work of that Committee for school betterment, especially in the rural districts.

This request should be granted. School betterment is always needed and Kentucky should keep up with and have advantage of all beneficial methods.

If the Democrats of Louisville would have of their very best men to supply the deposed officials, men who could and would be correct in the discharge of their official duties, they should show their interest by pulling themselves together, agreeing on the proper men and then present their names to the Governor. Good citizens will do this.

AS OTHERS SEE HIM.

The spirit of the man is made manifest when Editor Perry says he would not have the Scott county jury that cleared Hargis to try Powers for this reason: "That they cleared Hargis because he is a Democrat, they would hang Powers because he is a Republican."

DAVID HOWELL, Cashier.

IT IS THIS WAY.

The publication which follows shows how determined business men make things go. It is organization, money, push, judgment and determination. We are in need of these essentials. It has its beginning with a few who enlist the influence and powers of others until the entire city is permeated with a spirit of enterprise. "Louisville's Commercial Club" has an increase of 724 in membership for the year ending May 13th with total receipts \$13,042.25. This club has done much for Louisville's material growth and what such an organization has done for her, with a live united effort, considering size of city and advantages, a flattering comparison could be made here. With recent demonstrations we are persuaded that limits to prosperity are hard to find when men of determination and wisdom lay themselves out to bring things to pass. In this connection we want to ask that our people organize a Commercial Club and that they organize out for hard work.

In commenting on the article of the Lexington Herald, which we publish in another column, the Sun-Sentinel, Republican, says:

"The Herald has a large circulation in this city and county. The most ardent supporters of the Herald have been Republicans and liberal Democrats. It is evident from this editorial that the Herald will not care for this kind of support in the future. We try to keep the columns of the Sun-Sentinel clean, and print this only by the request of another gentleman, some of whom we induced to subscribe for the Herald. To answer it in kind would require language that we don't use in print."

In the first paragraph it does not require an adept analyst to detect the spirit of boycotting and of anarchy, while in the second is plainly visible a desire to do cunning. Put on your breaks, Bro. Perry. You had thought the Herald would be with you, didn't you? Disappointment does make some folks backslide.

For a Republican to speak sentimentally or to any other degree of political steals appears very much out of joint when we look back at the national steal in which not individuals but the Republican party participated and stole the presidency from Samuel J. Tilden. Stealing is stealing whether a Republican or Democrat is the thief.

Senator G. W. Shaolian, of Somerset, has introduced the Public Policy and Legislation Committee of the Louisville Commercial Club in a suggestion that an attempt be made to secure an amendment to the Constitution which will change the manner of voting bonds for road improvement by counties.

See Facts and Observations on the Louisville situation, public roads, enforcement of law, avenging a wrong done to a young woman, Hazel Green Academy, etc.

FACTS AND OBSERVATIONS

No Excuse For Idlers. Running Out Violators of Law.

The writer left Winchester on Wednesday morning for the L. & E. and O. & K. territory. On train we met Mrs. Hagerman and Mrs. Bledsoe, of Louisville, enroute to Hazel Green to attend closing exercises of the academy. From the rear of the L. & E. train the writer showed them the sights of river, crag and dale and other things too numerous to mention. The writer continued to Cannel City, and spent night at Caney.

There is great activity in shipment of ties, bark and lumber over these roads. Since the suspension of the road from Cannel City through Caney in January there has been much delay or inconvenience in delivering the products. Every man who will work and teams are in big demand at good wages. Railroad ties which four years ago sold at 22¢ to 25¢ are now selling at 47¢ to 50¢. Tan bark which sold at \$4.00 per cord now brings \$12.75. So great is the demand for lumber that purchasers take it fresh from the saw, ship to cities and put through quick process of seasoning. There is but little coal stocked at Cannel City. Money is plentiful and everything is on the go.

So far as the "peace and dignity of the Commonwealth" is concerned we hear very favorable reports from this section of Morgan and Wolfe. Officers who have regard for their oaths have been looking after things. The juries, too, have been executing the law and instead of shielding and acquitting offenders have been convicting.

County Judge Center, of Wolfe, visited the region round about Lee City and took such action as caused at least a temporary suspension of illegal selling of whiskey. Hurrah for the Judge! Perhaps some people will say he was meddling with other men's affairs and ought to have stayed at the County Seat. He did not in that way wink at lawlessness or stand with the whiskey element. Every citizen who knows that law is being violated should use his best judgment in correcting the evil. We believe a brighter era has begun.

On this trip the writer has read and meditated about the scandalous political affairs in Louisville which the Court of Appeals so deservedly rebuked. The Court has rendered valuable service to all political parties in Kentucky. Judging from what we have heard we do not hesitate to say the Democratic administration of Louisville should be sidetracked. They have shown themselves unworthy to control the interests of the city. If in any other city, controlled by Republicans, such disgraceful practices are resorted to, that city should pass into other hands. The deposed Democratic officials should take their medicine. We do not mean to place the same degree of guilt and criminality upon every official. No doubt some good ones have been caught in bad company. We suggest that Gov. Beckham appoint some Democrats, some Republicans, some Fusionists, all clean, honest, honorable men, who may be expected to save the city from such disgrace as came in 1905.

Paris Rose, of Lee City, sold his

farm, 150 acres, for \$2,500 to his father, Allison Rose and bought of J. W. Taulbee, of Daysboro, his 96-acre farm for \$1,000. Taulbee will move to the Capt. Cope farm on Frozen Creek.

Alex. Rose, aged 19 years, son of Allison Rose, last week graduated at Hazel Green Academy including book-keeping, short-hand, type-writing. Some firm needing a reliable, moral young man should confer with him. Three other brothers and sisters were in the Academy. There are 5 others at home. In all Mr. Rose has 15 children—11 by his present wife.

We were walking through the country between stations and dropped in and tarried till after dinner. His father, whom we knew in childhood, owned about 20,000 acres of heavily timbered land, which was divided between his 11 children.

The writer left Hazel Green after attending the Academy Commencement. There were 5 graduates in Academic Course and a large class in other departments. The exercises were up to the usual high standard, although the attendance of visitors was smaller, evidently on account of rains and bad roads. The principal, Rev. Derthick, will be assisted next year by the same corps of teachers. The year's work was very favorably reported.

Mesdames Miller, Bledsoe and Hagerman, of Louisville, were there, representing the C. W. B. M. auxiliaries. They were much pleased with the town and the work of the academy and the prospects for future usefulness. Mrs. Bledsoe met for the first time the little boy whom she and her husband are educating.

The academics at Morehead and Hazel Green have accomplished great things for Eastern Kentucky and are a lasting monument to the C. W. B. M.

THE ROAD.

The distance from Helechwah, the railroad station, to Hazel Green is about 5 miles. Hacks daily connect these places.

Passengers are fortunate if they escape being injured or "scared half to death." Part of the road is fairly safe. The writer has never seen the other part so dangerous. If authority is vested in the County Judge or other officials to keep the roads in passable condition, he or they should at once see that the work is done. That road is a serious reflection upon the county, its officials and people. We are not severe upon those responsible. If they have not passed over the way recently they should do so before the week closes. These dangerous holes should be drained and filled with brush and rocks. Streams of water should be turned out of the road. Of course this will require time and money. We know that the many tie wagons are largely responsible.

Wagoners which run between Cannel City, Caney and beyond should, for self protection and economy, haul slate from the mine dump and fill to overflowing the great depressions. We are, we think, doing a kindness to our friends—the officials—by calling attention to these roads.

MAT SLOAN SHOT.

At Lee City on Saturday morning Pete Stricklin shot and seriously wounded Mat Sloan, a noted law breaker. The writer passed through town a few hours after the shooting. It is said that five or six pistol balls passed through his body. Sloan was living when we were there, although the reports to the daily papers said he was killed. Perhaps the reporter thought he ought to have been killed. In other years we have in private talks tried to direct Sloan into the right way, but the temptations to sin have lured him to his ruin. He was a few weeks ago paroled from the penitentiary. Again he went into sin. To avenge a wrong done to his sister Fiedlin shot him. Sloan was a married man. The wages of sin is death.

Heavy rain covered a large section of Breathitt, Lee and Wolfe counties on Saturday. The L. & E. train was stopped 21 miles beyond Torrent. High water and drift wood struck a trestle about

50 feet by 400 feet and so moved were transferred and the west bound reached Winchester three hours late. Reports tell of heavy rains over large part of State.

The Closing Exercises

Of Mt. Sterling Collegiate Institute were held Thursday and Friday evenings of last week.

On Thursday evening the two Societies—Sterling and Addison—gave an entertainment which was a pronounced success. The numbers rendered were among the choicest selections and every pupil who appeared on the program did well his or her part.

The entertainment given by these young people shows what can be done under proper discipline and training, and lends emphasis to the efficient work of this new school in our midst.

On Friday evening the beautiful drama—"Out in the Streets"—was given by ten pupils—six young men and four young women. Each character was well taken and the plot of the play was well brought out. Edward Bogie as Colonel Wayne, the irascible old gentleman, was true to his character and received the approval of all, when he brought Baell Hadden, as Solomon Davis, a plausible rascal, to justice. Miss Anna D. Clark as the Colonel's wife made a most beautiful "old woman" and carried her audience throughout the play. Miss Julia Morris, the thoughtful daughter of Mr. and Mrs. Wayne, won the hearty approval of the audience in her disgust for the heartless landlord and sympathy for Minnie, the homeless child. Ralph Green as the dissolute son of Solomon Davis, was one of the most pronounced characters and displayed natural talent. Harvey Crooks as the young physician, acted well his part in the most trying ordeal of "asking the Colonel for his daughter in marriage." Miss Fannie Clark as Mrs. Bradford made a striking impression on the audience and brought out forcibly the suffering of the poor in tenement houses.

Arrington Johnson as the Colonel's saucy darkey, held the audience from start to finish, and did well the part assigned him. Baell Hadden as Solomon Davis, the plausible rascal, acted well and held up well even when arrested by Rhodes Burton, the master policeman. The outcast—Minnie Bradford—was played by Kathryn Stofor, the young daughter of A. W. Stofor. Though the youngest of the players she did well and carried her part in a masterly way.

Miss Virgie McClure was awarded the gold medal in Scholarship, her average grade being 95 per cent.

Miss Ollie Stephens was awarded the gold medal for general merit, her average grade being 99.8-9 per cent.

Miss Lucy Clay Woodford was a close competitor for the scholarship medal, her general average being 93.4-5 per cent. while Miss Elizabeth Wyatt and Smith Trimble were close competitors for the merit medal. The former's grade was 99.7-15 per cent; the latter's grade was 99.2-15 per cent.

Prohibition Sheriff Will Not Countenance Whisky Traffic.

Assistant Tax Commissioner Darst, of Parkersburg, W. Va., has gone to Randolph county on a peculiar mission. Sheriff Helmick, of Randolph county, is a strict prohibitionist. He has absolutely refused to receive any money for the State from liquor licensees, saying that neither privately nor officially will he be a party of any transaction which countenances the liquor business.

The saloon keepers there are much worked up and the assistant commissioner does not know just how to proceed to compel the Sheriff to collect the money.

HOUSE BUILT BY BLIND MEN.

Worked on Pitch Dark Nights as Well as by Daylight.

Two totally blind men have built a house for themselves at Berkeley, Cal., doing all the carpenter work themselves without any assistance whatever.

It is a coincidence that both these men are named Joseph—Joseph Brown and Joseph Martinez. The house, according to Popular Mechanics, is of the popular bungalow type, one and a half stories high and constructed entirely of wood. It is 18 feet wide by 25 feet long.

As the builders are sightless the work necessarily progressed slowly. From early morning until frequently long after sunset the two men labored patiently at their task. The shades of night did not hinder the work, for noonday and midnight are equally dark to them and out of the darkness came the song of the saw and the blows of the hammer to unassisted, who heard but saw no workmen.

From day to day the work has been carefully watched by crowds, including many carpenters. The general work is pronounced as good as that performed by many builders who are blessed with perfect eyesight.

Brown and Martinez were not blind from their birth, but were deprived of their sight many years ago. They were door to door peddlers for many years and managed in the course of time to accumulate some sums of money that were wisely deposited in bank. At the time of the great fire in San Francisco these men lost everything save their little bank accounts.

Recently they pooled their holdings, purchased a small lot in Berkeley and some lumber. They then set to work resolutely and have built themselves a house.

VERMONT'S QUARRIES.

Out of the massive marble hills of Vermont has been wrought by labor and skill, a part of the nation's wealth. Some years ago, it was a common statement that as much money had been lost in the marble business as had been made in it, but this is no longer the case; for, although the testing and developing of a quarry is a heavy expense, the business is now on a stable basis. Hundreds of thousands of dollars have been sunk in efforts to obtain a marble quarry, and the chief expense is still labor. A quarry differs from a gold mine in that, however good the product may be, it merely offers an opportunity to produce stone on a paying basis, and on a relatively small margin of profit. In some quarries a royalty of five cents per cubic foot is paid to the owner of the land for the merchantable marble that is taken away.—National Magazine.

NO RULES FOR SUCCESS.

There is no such thing as a single, particular proposition in business, says a writer in Everybody's. No doubt this was always true in a measure; but it becomes more inclusively, more vitally, true every day with the increasing coordination of business. The whole business web knits ever closer, and each particular concern is bound more tightly in it. What other people do reacts more quickly than formerly upon your own affairs. A martial blast sounded in Buenos Ayres blew some very peaceful Boston gentlemen out of Union Pacific. Stockholders in Kansas banks got better dividends because some Russian grand dukes wanted war with Japan. The peculiar operations of the dual brain cells made wheat higher. Who will pretend that he can reason out what a grand duke is going to do?

IN THE FAR FUTURE.

A male professor of physical culture has been telling how women should dress in order to secure perfect freedom in limbs and lungs, which is the secret of health. She should never be conscious that she has any clothes on, he says, and he condemns all garments, under or outer, which may be described as two-piece. In short, he says in plain terms that women should not wear more than two—certainly not more than three—garments, each of which should be in one piece. It can scarcely be imagined what the effect of his toilettes made after this fashion would be, but it is hardly to be expected that there will be a movement in favor of the sack costume.

THE LINE BETWEEN

Stein-Block and Hamburger Clothing

And other ready-to-wear clothing is so great that even poorest judges of merchandise can at once see the difference, to say nothing of the discriminating buyer, who long ago learned that all things are classified and that all standard goods are labeled. The labels on the Stein-Block and Hamburger Suits stand for a half century's work, worry, system, and knowing how; a half a century's combined efforts of labor and capital, to make and keep them the foremost ready-to-wear clothes in the world. They stand today in a class that is strictly their own, and of their own making, they are different, and if they were not different they would not be here; and again, if Walsh Bros. could not sell different clothes from other stores, they would not be selling clothes. To the man who lives in this great country, who is carrying the high-priced tailor's burden, or shoddy tailor's raiment, we know there is a reason for your sorrow. Perhaps some years ago you bought ready-to-wear clothes from some unscrupulous store who cared not for fit, style, fabric, or you, and you have since camped out. We want you; we want you to return to ready-to-wear clothes, to come to our store and see the great progress your country has made in the tailoring of ready-to-put-on apparel. It is worth your while, and the more discriminating you are the more capable you will be of appreciating the art of our offerings.

COME TO-DAY.

The great Stein-Block Suits and Outing Suits in the new English sack coats, made with broad, elegant shoulders, new style set pockets, new style cuffs on sleeves, with deep gorge collars and broad lapels, closing with 3 buttons that are set very close together; new 3 and 4-button vests with or without flaps on pockets; and the latest cut trousers that are especially tailored for spring and summer wear. The greys, blues, browns and tans which are so popular this season in fabrics for men's clothes show up beautifully in the English Sack. Stein-Block Suits as low as

\$18 and up to \$30.

The Newport Sack, the Sagamore Sack are two of the latest creations from the tailor shops of Hamburg. These garments are swell things for young fellows who want extremes in their clothes. The fabrics are the latest things shown in the New York market, and have just come in by express. Gun Club Checks, Chain Weaves and Shadow Plaids in Racine Velour Cassimeres. The fabric here used in these garments has no equal for its shape-retaining qualities, the broad shoulders and curved lines of Hamburg's garments rounds out the figure of the youth as no other clothing can.

Editors and Preachers We Repeat.

A preacher once said, "Editors dare not tell the truth. If you did you could not live. Your newspaper would be a failure." The editor replied, "You are right, and the minister who will at all times tell the bare truth about his members, alive or dead, will not occupy the pulpit more than one Sunday, and he will find it necessary to leave town in a hurry. The press and the pulpit go hand in hand with white wash brushes and kind words, magnifying little virtues into big ones. The pulpit, press and gravestone are the great saint-making triumvirate." And the minister went away looking very thoughtful, while the editor turned to his work, telling about the surpassing beauty of the bride, while in fact, she was as ugly as a mud fence.

A TRAMP'S GOOD SAMARITAN.

Gave Him a Pipe and Tobacco When He Needed It.

Last week a man was locked up in the holdover at police headquarters on the West side on a petty charge, says the Kansas City Star. It was a cold night. As there is no place provided where people who apply for a night's lodging can sleep, the police allow those who wish to do so to sleep in the big cell room. While the man was locked up a tramp came in and discovered he had lost his pipe.

"I haven't a cent to buy another one and I have been begging tobacco for three days," said the tramp.

An hour later the man who was arrested was released on bond. He returned soon after with a cob pipe and a sack of tobacco.

"Can I see that tramp in jail?" asked.

"What do you want to see him for?" said the sergeant.

"Well, he has lost his pipe and hadn't a cent to get a new one. So I thought I would give him one."

"I'll take it down to him," said the sergeant, as he reached for the jail keys.

AN UNCONSCIOUS KNOCK.

Miss Ellen Beach Yaw, the singer, one day in the mountains of southern California saw two deer at the foot of a mountain.

A friend of Miss Yaw's, a Cincinnati, after recounting this incident, said the other day:

"Let me tell you another story about her. When she was a little girl she visited a lady who gave her the family photograph album to look at. She turned the leaves quickly, and in a few minutes closed the book."

"Don't you like it, dear?" the lady asked.

"Yes, very much," said the little girl, politely.

PERSIAN CLEANLINESS.

We are bound to like the Persian for his personal cleanliness. He will wash. He is the most hospitable man on earth—always with the expectation of presents. He is either immoderately mirthful or violently quarrelsome. He loves the fair sex and is not averse to wine. He is commonly fat, with black hair, a high forehead, rufous nose, full cheeks and a large chin, the form of his countenance being oval. He is generally strong and robust and addicted to martial exercises. He rises with the sun, and having dressed takes a cup of coffee, with some fruit. At 11 o'clock he eats breakfast, and between nine and ten p. m. dines on the fat of the land. Rice is always the piece de resistance. He boils his meat to death, but enlarges the meal with numerous vegetables, fruits, sweet cakes, hard boiled eggs and ices.

The Coney Island United Shows.

ONE OF THE FUN MAKERS AT THE A. O. U. W. CARNIVAL NEXT WEEK.

Henry J. Freeman, representative, states the Coney Island United Shows consist of a number of clean, refined, moral entertainments that are a credit to their class. The manager, A. T. Wright, guarantees that every attraction is conducted by ladies and gentlemen, artists of ability.

The Old Plantation Minstrels is a laughable colored minstrel show with its End men, Buck and Wing Dancers, etc.
 CREATION, the feature attraction, is a reproduction of the one at St. Louis in miniature.
 LEWIS' BIG SNAKES are the largest on earth, being 27 feet in length. The Thaw-White tragedy is realistic to a degree. Hopp, the atrophied man, is a strange curiosity. The Congress of International Dancers is a clean, burlesque show. The Ferris Wheel and Penny Arcade will also be there. It is a benefit performance for Hinkston Lodge No. 87, A. O. U. W., and lasts all week at the old show grounds.

It will pay people to come for miles to attend the great reduction sale of the patterns and street hats beginning Thursday at

CHANGE IT IN THE BILL.

"Doctor," said a shrewd looking man, "how many feet of gas does it take to kill a man?"
 "That's a queer question," replied the doctor. "Why do you wish to know?"
 "One of the guests at my hotel used enough of it to kill himself and I want to send in a proper bill to his executors."

YOU NEVER CAN TELL.

"Well," remarked the amateur student of human nature, "you can be pretty sure that the woman who doesn't gush over a pretty baby is a confirmed old maid."
 "Not at all," replied the wise man. "She may be a mother who has a baby she thinks is prettier."

GOOD PHILOSOPHY.

The pitcher had gone to the well for the last time.
 "And yet," he remarked to himself, "I can claim as much credit as lots of men. I was nearly always full before I was broke."
 And he went his way in piece.—Toledo Blade.

WITH THE MULE BEHIND IT.

Dubley—Here's a joke for you "Hard luck—A horse shoe." See? Scribbles—Huh! it's hard luck! I wasn't a mule shoe when that joke struck you.

ALL HIS OWN.

"Yes," said Woody, "this is my coat-of-arms."

"By the way," remarked Gaddie, "do you know that Snerwell has been telling everybody that it's not really your coat-of-arms at all?"
 "The idea! Why, I designed it myself."
